Message from the Founder

The world is facing a health crisis of its very own making. Cardiovascular diseases take more lives than any other malady, and the World Health Organization (WHO) contends that at least 80% of untimely deaths from cardiovascular events could be prevented if people ate a healthy diet, exercised and moved regularly, and avoided unhealthy addictions, such as the use of tobacco. These factors also drive the rising rates of type II diabetes, which claims the health of 10% of the world's adult population, and could be easily avoided altogether if wellness took precedence in people's lives.

That's where you come in. As a Primal Health Coach, you'll transform lives through the scientifically validated nutrition, fitness, and lifestyle principles of the ancestral health movement. I've devoted my life to health and wellness, and throughout my time as a professional endurance athlete (and as a recovering endurance athlete!) I've experimented with many different nutritional philosophies and programs. My research led me to primal living, and it was only by following evolutionary health science that I was able to cure my chronic conditions. I was hooked on ancestral health, and knew I'd uncovered the key to healing not just my health, but also the health of the world.

I can't do it alone, and need dedicated health professionals to help me spread the knowledge so we can reset those alarming statistics. Longevity is within everyone's grasp, so let's help people improve the quality of their lives, lengthen their lifespans, and relish in the happiness that comes with healthy living.

As you read through the overview of this program, I invite you to imagine your life as a Primal Health Coach. If you're passionate about the principles covered, the career that's waiting, and the impact you'll have on the lives of others, then I encourage you to join our team of exclusive experts. Thank you for taking the time to learn more about our mission, and for your dedication to the wellness of the world.

A stylized, handwritten signature in black ink that reads "Mark Sisson".

Founder of the Primal Health Coach program

The Primal Health Coach Course Components

The course includes lifetime access to 20 comprehensive chapters based on evolutionary health, science, business building, and the model of Integrative Health Coaching.

- The first 13 chapters teach **ancestral health and nutrition science** including how to reprogram genes to direct optimal cellular function; the biochemistry of metabolism; and the absolutely best, research-supported ways to eat, move, and live, to help you and your clients achieve an optimal human experience. Each lesson consists of a video overview from Mark Sisson, reading material, audio supplements, and an examination.
- Chapters 14–20 explore **the art, science, and business of health coaching**. You'll begin with a chapter focused on Scope of Practice for health coaches, so that you can step confidently into your practice, while knowing and following the regulations in your region of the world. Following that, Master Coach Christine Hassler will teach you how to strengthen the coach-client bond with a practical approach to securing clients, structuring sessions, asking questions, and motivating transformation. You'll also learn how to develop a marketing strategy, so you can attract and enroll the clients who need your help. Finally, we'll teach you how to *be a health coach*, in practice.
- Interspersed among those 20 educational chapters are **14 Business Building Tasks, 3 Coaching Practicums, and 3 Business Development Projects** that help you achieve a clear focus on how you'll shape your health coaching practice, that provide you with the opportunity to test your health coaching skills and abilities, and that prepare you to launch your business upon graduating. You'll work on developing your business niche, identifying your avatar client, and establishing your unique value proposition; right through to the hands-on business pieces like building your website and developing your marketing content. These lessons include practical exercises crafted to lay the foundation of the health coaching business of your dreams.

You will gain lifetime access to the Business Resource Center, which contains all the business-related needs of a Primal Health Coach practice. We provide the inspiration, know-how, and practical tools for getting your health coaching business up and running as smoothly as possible, and for refining your current practice with a more solidified business plan, including legal considerations. We offer a comprehensive guide to rates and programming, as well as a turnkey health and fitness program to take your client through 12-weeks of exciting, game-changing, lifestyle improvement.

In order to share ancestral health knowledge far and wide, we've made accessibility and ease our top priorities. Learn from the comfort of your own home, online, and at your own pace.

As soon as you enroll in the Primal Health Coach Institute, you gain unlimited access to an online portal filled with multimedia educational resources, including videos, text, and audio additions, along with the online course material and examinations. We also include Primal Blueprint Publishing's bestselling digital books, audiobooks, and other resources.

Getting Started

The welcome screen features a table of contents containing all 16 chapters to be completed in numerical order. However, only Chapter 1 and Business Building Task #1 are accessible during your first week as a Primal Health Coach Institute student. One chapter a week is available every week thereafter. Chapters consists of a variety of media including video, audio supplements, and text material. You can proceed with your reading, viewing, listening, and test taking at your own pace, logging into and out of the course at any time and picking up at the bookmark you place when you sign off.

Passing the Exams

After you complete the video and text/audio supplements course material for each chapter, you can take the online exam ranging from 20 to 45 questions, a mix of true/false and multiple choice. To pass an exam, you must score 75 percent correct or better. If you score below 75 percent, you can return to the material for review and then attempt the exam again and as many times as you need to pass it. If you struggle on the exams, our staff is here to help you with one-on-one support to ensure that your experience is positive.

Guided Tasks, Practicum and Projects

While working through the 20 chapters, once you pass the exam, you'll be presented with Business Building Task, Coaching Practicum, or Business Development Project for that chapter. These exercises can be done at your own pace - and help prepare you to be a successful coach upon receiving your certification status.

Additional Multimedia Educational Materials

You can also take advantage of the following resources, which are continually updated with the latest multimedia materials produced by Primal Blueprint Publishing and Primal Health Coach Institute.

Audio Books

You will receive the following mp3 files for convenient download into your favorite audio player platform or for streaming any time from your login portal.

- *The Primal Blueprint: Abridged* recording (3.5 hours) of the original bestseller, narrated by Mark Sisson.
- *The Primal Blueprint 21 -Day Total Body Transformation: Unabridged* recording of the entire book, 5.5 hours in duration.
- *The Primal Connection: Unabridged* recording of the entire book, 6 hours in duration.

Digital Books

Digital copies in PDF format of five popular Primal Blueprint titles:

- *The Primal Blueprint*
- *The Primal Blueprint 21-Day Total Body Transformation*
- *The Primal Connection*
- *The Primal Blueprint Cookbook*
- *Primal Blueprint Quick & Easy Meals*

You can download these files onto the device of your choice, or access them any time at your online portal.

What You'll Learn

No other health coaching school arms you with such in-depth, comprehensive ancestral health knowledge AND offers so much support, practical business-building skills, and a wide array of tools and materials to enable a speedy and successful launch of your thriving health coaching business. We are here to guide you every step of the way.

Chapter 1: Yes, You Really Can Reprogram Your Genes!

We can reprogram the genes that impact health and longevity by altering lifestyle habits to more closely resemble those of our hunter-gatherer ancestors. Genes can be viewed as “on/off” switches because they continually direct the production of protein molecules that influence every element of body structure and function. We explore in depth how to turn on the genes that direct optimal health, and turn off the genes that instigate disease, with signals provided by the foods we eat, the type of exercise we do (or don't do), our sleep habits, sun exposure, and much more. In this chapter, you'll learn all about:

- The function of genes, and how they are constantly working to repair, regenerate, or destroy your cells based on the environmental signals they are receiving.
- The distinction between the basic set of *Homo sapiens* genes that we all share, and the particulars of one's familial genes that create individual differences among humans.
- The mechanisms behind gene expression: transcription, translation, and everything in between.
- How to manipulate gene expression through foods, workouts, and lifestyle behaviors.

Chapter 2: The Clues to Optimal Gene Expression Are Found in Evolution

Two and a half million years of selection pressure and harsh environmental circumstances created the perfect genetic recipe for human health and longevity. Our genes expect us to be lean, fit, and healthy by adapting the lifestyle behaviors and diets of our primal ancestors into the realities of comfortable, high-tech modern life. Together, we explore a comprehensive view of the human timeline of evolution, including the spread of the human population and the advent of civilization and its impact on gene expression. We cover how the lack of selection pressure since the advent of civilization has halted human evolution, and explain the continued increases in genetic diversity, as we look to our hunter-gatherer ancestors for guidance. In this chapter, you'll learn all about:

- The 10 Primal Blueprint laws that drove human evolution.
- The advent of civilization and modern living's severe cost to human health.
- The fitness and nutrition choices of primal humans, and how we can mimic certain aspects of their lifestyle to enhance gene expression.
- The truth about human lifespan from pre-civilization to now.

Chapter 3: Your Body Prefers Burning Fat Over Carbohydrates

Humans have been hardwired through environmental selection pressure to prefer fat as their primary fuel source from both storage and dietary sources. In contrast, the modern high-carbohydrate, grain-based diet has created a dependency on external carbohydrates for energy at the expense of efficient fat metabolism, while stimulating chronically excessive insulin production. A high -carb, high insulin-producing diet is pro-inflammatory, immune suppressing, and hormone balance disrupting, which increases the risk of assorted health problems and serious disease. In this chapter, we'll show you how to:

- Reprogram your genes to become efficient at fat and ketone burning.
- Minimize the breakdown of lean muscle tissue into glucose for quick energy.
- Improve caloric efficiency, the ability to survive and thrive on fewer ingested calories.
- Avoid unhealthy fats and choose healthy fats for metabolism activation.
- Take advantage of the sweet spot for carbohydrate consumption.

Chapter 4: 80% of Your Body Composition Is Determined by How You Eat

Excess insulin production from a high-carbohydrate diet is believed to be the worst health problem in modern life; it drives fat storage and systemic inflammation and interferes with healthy immune and hormonal function. A low insulin -producing diet, on the other hand, promotes the use of stored or ingested fat as the primary source of fuel. We also reveal the truth about exercise and how it relates to weight management, and give

you the low down on the compensation theory, which suggests that the burning of calories through vigorous exercise actually triggers an increase in appetite, a decline in metabolic rate, and an increased propensity to store fat in the aftermath of a workout. In this chapter, you'll gain knowledge on:

- The role of insulin and how to effectively regulate insulin production for optimal gene expression.
- Insulin resistance, and how it keeps the body locked in a chronic fat-storage pattern.
- How skinny doesn't necessarily mean healthy, and how a high insulin-producing diet may be drastically affecting health.
- How to reverse insulin resistance and other disease risk factors in as little as 21 days.
- Why what you eat determines 80% of success with body composition goals.

Chapter 5: Grains Are Totally Unnecessary

Here's the truth about grains: they have minimal nutritional value, stimulate excess insulin production, and contain “anti nutrients” that compromise digestive and immune function, promote systemic inflammation, and inhibit the absorption of vitamins and minerals. In this chapter, we cover:

- The facts about refined grains as well as whole grains, busting apart conventional wisdom in the process.
- What you and your clients need to know about legumes.
- How whole grains and other complex carbs burn slower than sugars, but still make an identical contribution gram-to-gram to one's total insulin production over time.
- How lectins, gluten, and phytates compromise nutrition and health.
- How today's harvesting methods and genetically modified wheat crops can cause digestive disturbances and trigger chronic conditions.

Chapter 6: Fat and Cholesterol Are Not Your Enemy

Conventional wisdom got it wrong: cholesterol and saturated fat aren't the true causes of today's heart disease epidemic. The real culprits are oxidation and inflammation in the bloodstream, a state that is caused by poor dietary and lifestyle habits. Saturated fat is actually an excellent source of energy and supports healthy cellular function—our cell membranes are comprised mainly of saturated fat and many hormonal and metabolic processes utilize saturated fat. We detail the dietary pattern that instigates the heart disease process and cover everything you need to know about good and bad cholesterol, and its role in cardiovascular complications. In this chapter, you'll learn all about:

- Saturated fat and its part in human evolution.
- Triglycerides, LDL and HDL cholesterol, and their relationship to heart disease.
- Statins, and how they have minimal impact on the most important heart disease risk factors, and have numerous problematic side effects.
- The true catalysts for heart disease, oxidation, and inflammation.

Chapter 7: Exercise Is Ineffective for Weight Management

Here we expose the myth of exercise as imperative to weight loss/management. While the calories in -calories out equation is literally true, the variables of appetite, energy level, and hormone function make this equation an incidental component of the weight management challenge, rather than the end -all. We show you how to utilize general everyday low-level movement to promote optimal health, immune function, fat metabolism, and brain function... and how to take advantage of brief, high-intensity strength and sprint workouts for enhanced organ function, optimized body composition, elevated mood and cognitive function, and total body, functional fitness. In this chapter, we reveal:

- Why exercise doesn't support weight management.
- The greatest benefits of exercise: the movement of muscles and joints and the optimization of adaptive hormones.
- The body's specific genetic requirements for comfortably paced exercise to move closer toward optimal health, fat metabolism, and protection against common sedentary-related health problems.
- The dangers of chronic cardio, and how to break out of this deleterious pattern.
- The maximum heart rate to achieve optimal aerobic benefits without triggering the fight-or-flight response.
- The true relationship between body composition and metabolic rate, and the biggest benefits of building lean muscle mass.

Chapter 8: Maximum Fitness Gains Can Be Made in Minimal Time with High-Intensity Workouts

The body must engage in maximum effort exercise in order to stay strong, healthy, and resilient against chronological aging and to withstand and recover from unforeseen trauma and illness. High-intensity, shortduration workouts stimulate the release of adaptive hormones in the bloodstream, which help boost energy and delay the aging process by optimizing the function of all organs and systems in the body. Even basic efforts to integrate some highintensity strength workouts and sprints into an exercise routine can positively impact body composition, energy levels, mood, and longevity. In this chapter, we cover:

- The scientifically proven health benefits of brief, high-intensity workouts, and how and when to apply them.
- The preferred types of strength exercises: functional, full-body movements that activate large muscle groups.
- How to correctly taper exercise volume and intensity to actually improve peak competitive performance.
- How to pair intense exercise with fasting to prolong the benefits of adaptive hormones in the bloodstream and to accelerate fat burning for those interested in reducing body fat.
- The cause of delayed onset muscle soreness (DOMS) and how to best heal.
- Carbohydrate consumption for devoted high-intensity exercisers.
- The effects of high-intensity exercise on mitochondrial biogenesis, which helps to synthesize hormones, metabolize fat, and optimize glucose, insulin, and calcium levels in the cells.

Chapter 9: Eliminate SAD Foods

SAD stands for “Standard American Diet,” which is rife with foods that trigger a highinsulin response and thwart health and weight goals. Some SAD foods speak for themselves, such as junk food and fast food, while others play such a prominent role in the diets of Westerners that they are more difficult to spot and eliminate. We’ll teach you how to identify the SAD foods that compromise health so you can conduct a pantry and refrigerator purge with your clients. In this chapter, we pinpoint:

- The three most offensive and over-emphasized elements of the Standard American Diet.
- Polyunsaturated fats and chemically altered partially hydrogenated fats and trans fats and how they are inextricably linked to chronic disease.
- The foods to avoid in the following categories: grains, baking ingredients, beverages, condiments, dairy products, fast food, fats and oils, fish and seafood, legumes, meat, potatoes, processed foods, sweets.

Chapter 10: Shop, Cook, and Dine Primally

We don’t want to leave you or your clients hungry, so in this lesson we show you where to shop for budget- friendly, primal-approved foods. Alternative grocers, farmers’ markets, co ops, ethnic markets, and Community Supported Agriculture (CSA) are stocked with the highest quality, most nutritious foods. In this chapter, we teach you how to:

- Maneuver through mainstream markets to make sure you’re avoiding SAD foods and taking advantage of primalapproved offerings.
- Establish relationships with local farmers that can benefit both you and your clients.

- Steer you toward ethnic markets, which feature a vast array of innovative meat options and exotic herbs and spices.
- Cook with products that can withstand high temperatures, such as butter, ghee, and coconut oil.
- Listen to your body and learn its signals of hunger and satiation.
- Make the most of dining out.

Chapter 11: Understand the Spectrum of Best to Worst Food Choices

To “forage” in the traditional sense means to “search for and secure food.” These days foraging is all about discernment—moving away from instant availability and industrial processing, and moving toward quality and nutrient-dense foods. You’ll learn all about how becoming a fat -burning beast will likely reduce the amount of calories needed to sustain energy, which in turn promotes enhanced cellular repair and longevity. In this chapter, we discuss:

- How to eat primally without breaking the bank.
- How to honor the 80% rule and eat at the highest end of the spectrum of food choices whenever possible, without stressing or obsessing about perfection.
- Your primal-approved options, and how to take advantage of local and in-season fare.
- The importance of choosing local pasture-raised or USDA-certified organic meat and poultry.
- What you need to know about wild-caught fish and farmed fish, and the best options for each.
- Sensible sweets that will up your antioxidant intake without raising your carbohydrate load.

Chapter 12: Exercise Primally: Move, Lift, and Sprint!

Primal Blueprint fitness mimics the physical activity of our ancestors with a combination of functional full -body strength training efforts and regular bouts of all -out sprints. At its core are three basic laws: move frequently at a slow pace, lift heavy objects regularly, and perform occasional all-out sprint workouts. We show you how to move clients away from a conventional training program focused on regimented, physically exhaustive workouts and toward a sensible primal exercise routine manageable for (and enjoyed by!) all levels and body types. In this chapter, you’ll learn:

- How the lifestyle of our ancestors determined the body’s fitness preferences.
- Why moving frequently at a slow pace is so important, and how to best add lowlevel aerobic activity into daily and weekly routines.
- Suggestions for brief, high-intensity strength training sessions.
- The Primal Essential Movements (PEMs)—pushups, pullups, squats, and planks—for a highly functional, high intensity, total body workout that is simple to learn and safe to perform.
- The importance of brief, all-out sprints, and how (and how often) to perform them, including proper warmup and form.

Chapter 13: Slow Life Down

Sleep, sunlight, play, and creative intellectual outlets, along with diet and exercise, helped perfect the DNA recipe for a healthy, vibrant human being. Our hunter-gatherer genes crave a reconnection to the natural environs from which we evolved. Unfortunately, we've created an artificial microcosm of glaring lights, computers, digital gadgets, text messages, emails, Tweets, and Facebook updates that rule our days and over stimulate our nights, overriding the powerful circadian rhythm that governs sleep, hunger, wakefulness, and the hormones that support health and well being. Here, we reveal why it's imperative to reconnect with our original bearings in nature and restore the social orientations that are so critical to our human identity and wellness. In this chapter, you'll learn:

- How to enhance your appreciation of food by eating meals with full awareness, at a comfortable pace, and in a calm, relaxing environment.
- The impact of social networking and the importance of establishing and maintaining authentic interpersonal relationships.
- How to reset your circadian rhythm and optimize sound sleep.
- Why “adrenalin-rush” type adventures are necessary, and how engaging in the occasional thrill energizes and refreshes.
- Ideas for connecting with nature, because our genes still expect age-old nature-based inputs.
- The significance of sunlight, and how to obtain optimal levels of vitamin D.
- How to tame our addiction to a hectic daily pace and multitasking behaviors, which undermine personal relationships and individual fulfillment.

Chapter 14: Scope of Practice

Health Coaches represent a few of many important unlicensed health care practitioners in the emerging preventative health paradigm. It is essential to know and to adhere to the regulations for operating legally as a health coach, no matter where or how you decide to roll out your business — in private practice, in a gym, as part of a corporate wellness offering, in a functional medicine clinic, in person or online. Your first line of legal protection is to ensure you are always operating within scope of practice, and in this chapter you'll learn all about it, including:

- Defining your value as a health coach: What health coaches CAN say and do.
- How to operate as a health coach without giving individualized nutrition advice.
- The power of behavior to change in the role of preventative healthcare.
- What health coaches CANNOT say or do.
- What type of language and tactics are considered generally within scope for health coaches, regardless of regional regulations.
- Education and resources to help you understand the specific and oft-changing regulations in your region of the world.
- The importance of collaborating with a lawyer to ensure you are on the right track for the regulations in your region.
- Creating and publishing your Terms, Conditions, and Waiver.
- Creating a Client Agreement that communicates clearly what you can and will do for the client; what you can't and won't do; and what your expectations are of your client, too.
- BONUS: Scope of Practice Worksheet to help lead you through understanding what is in scope and out of scope as a practicing health coach, in your particular region.

Chapter 15: Coaching Foundations

Master Coach Christine Hassler strengthens the foundation of your coaching practice by helping you connect with your personal passion for health coaching. Through interactive video lessons, Christine helps you turn the volume down on your inner critic and then walks you through how you can help clients do the same. She also covers business building and branding tips. In this lesson, you'll empower your practice with the following strategies:

- Helping clients identify their 3 majors: where they are now, where they'd like to be, and what's blocking them.
- Putting achievable milestones in place so clients can successfully reach their goals.
- Reframing language, so both coach and client operate from a place of vision and values.
- The difference between coaching and therapy.
- Dealing with limiting beliefs and providing tools to help overcome them.
- The importance of an assessment form and how to take a holistic approach to client planning.
- Discovering your secret sauce, getting clear on your mission, and building your brand.

Chapter 16: The Art & Science of Health Coaching

Master Coach Christine Hassler teaches you the art of active listening, so you can create space for honesty, openness, and trust with clients. Engaging with clients involves mastering skills such as sitting with silence, making eye contact, listening with non judgment, and asking the right questions, the right way. She covers it all, along with how to use your clients' (and your own) stories to help push them further towards their goals. Christine also covers a topic that is typically left out in coaching trainings — intuition, and how, when combined with intellect, it's an incredibly useful tool when it comes to building a business and working with clients. In this series of videos, Christine covers:

- The advantages and how-tos of active listening.
- How to use perception checking to build trust, create insight, and secure commitments from clients.
- The importance of allowing for spaces of silence.
- How to stay out of judgment and resist the tendency to “fix” your clients.
- How to cultivate authentic, supportive energy using compassion and curiosity.
- The importance of “I” language to goal setting.
- How to get to the essence of your clients' stories, and move them forward toward stories of success.
- The best way to ask questions and encourage insight.
- The correct use of praise and acknowledgment.
- How to set up ongoing communication outside of sessions, while establishing clear boundaries.

Chapter 17: Advanced Coaching Layers

Much of what you'll spend your coaching relationship working through with clients will actually have very little to do with food, fitness, or lifestyle. You'll find yourself often digging into what motivates your clients behaviorally, mentally, emotionally, spiritually, and in their relationships. A health coach that can come to the table with deeper coaching skills will be in a stronger position to encourage lasting health and happiness.

In this chapter you'll access the breadth of life coach Christine Hassler's wisdom, including:

- **Working with clients on the behavioral level.** How and why we gravitate to certain behaviors, and techniques to encourage behavior modification.
- **Working with clients on the mental level.** A dive into helping clients overcome the mental hurdles of (sometimes uncomfortable) change.
- **Working with clients on an emotional level.** Emotional attachment to food habits runs deep; you'll find yourself navigating the emotional waters with your clients often. Learn teaching tools you can use to gently release your clients' emotional attachments."
- **Working with clients on a spiritual level.** Tapping into a spiritual connection to anything—a religion, a thought leader, nature and the world around us—can help encourage transformation in your clients' lives.
- **Working with clients on their relationships.** This chapter teaches tactical tools to tease out the support networks in our clients' lives.
- **PLUS: Live coaching demos.** Learn from the pro, as Christine uses these tools of the trade with real coaching clients."

Chapter 18: The Business of Health Coaching: Discovery, Sales, Enrollment, and On-boarding

Now that you have a signed client, how are you going to work with them?

Chapter 18 is all about Programming: how to on-board your client into your care and build a transformational coaching relationship with them. We base this chapter off of the 12-Week Primal Health Coaching program, a one-on-one coaching program we've developed that helps nurture clients into an ancestral health template.

This chapter goes very deeply into what it's like to be a health coach.

Chapter 18 includes:

- One-on-one coaching versus group coaching: which is the best way to begin your Primal Health Coaching business?
- Suggestions for other health coaching formats a coach may choose to implement.
- A deep dive into the benefits of running short-duration “challenges” to help drum up business.
- Assets and program materials for the 12-Week Primal Health Coaching program, a turn-key coaching program that enables you to go to business immediately after graduating.
- A complete run-down of how to decipher and answer to the information clients provide in their Intake and Follow-Up forms.
- Assets and program materials for a 21-Day Primal Challenge, a great tool for coaches to use as an on-ramp or reboot program.
- Case studies demonstrating Primal Health Coaching practices in action from some of our seasoned and successful alumni.
- A list of commonly-asked questions from clients embarking on an ancestral health transformation, as well as suggestions as to how to answer them.
- Health coaching demo videos: watch a veteran Coach lead a client through the 12-Week Primal Health Coaching program.

Chapter 19: The Business of Health Coaching: Marketing

It all comes down to this: you want to help as many people you can, in your own unique way. So... where do you find the clients? **The answer is: they find you.**

Your marketing strategy will attract the clients who need your help... but none of us is a born Marketing Manager and “not knowing where to start” is the #1 hurdle aspiring entrepreneurs face. This chapter was specifically designed to teach you the essentials of marketing and business development so you feel confident going to business. Designed to layer over the Business Building Tasks completed in the first 12 chapters of the course, this chapter covers:

- The Sales Funnel. What is it, why is it important for a small business owner, and how does it work?
- Inbound Marketing: Driving traffic to your website.
- Converting traffic to leads via an effective opt-in and a valuable lead magnet.
- Nurturing leads with a simple, automated email marketing campaign.
- How effective marketing communications does half the work for you, where enrollment is concerned.
- PLUS: Tutorials to help you build your website, set up your email sequence, and more.

Chapter 20: The Business of Health Coaching: Programming

Master Coach Christine Hassler makes sales not so scary in this series of strategy videos. Whether you're a sales maestro, or sales typically has you running for the hills, you'll learn how to surpass any roadblocks and sell like a pro from a space of service. She'll help you create your avatar client and shape your brand and niche. Together, you'll explore the importance of congruence, confidence, and consistency when it comes to building your business. She's got you covered from everything to the pre-enrollment call to turning those “No” answers into coachable moments. In this set of videos, you'll learn how to:

- Identify the myths, limiting beliefs, and stories holding you back from selling.
- Figure out and positively transform your money story.
- Think of your business as transformational, not transactional.
- Adopt a service consciousness over a servant consciousness.
- Not be afraid of perceived rejection and instead embrace the nos
- Determine your ideal client based on your own journey to health.
- Conduct a discovery/pre-enrollment call, including the 5 questions to ask all potential clients.
- Handle pricing-how and when to bring it up and stick to your guns!
- Follow-up when you get a yes or when you get a no.

BONUS: Business Building Tasks at a Glance

Our students and graduates are an enterprising bunch of people who know the world needs their help; but who perhaps have never embarked on building a business of their own before.

These non-compulsory lessons appear in our coursework right from the get-go, and are designed to encourage our students to think about the business they want to build well before graduation. Hit the ground running and start helping the people who need you, ASAP.

Business Building Task #1: Your Story.

The first step in building your business is determining who you are; as a person and as a coach.

Business Building Task #2: Your Niche.

Your niche (also called your target audience, or “avatar client”) will unfold from your story.

Business Building Task #3: Your Unique Value Proposition.

Your UVP expresses how you’re uniquely qualified to help a targeted niche with a specific challenge.

Business Building Task #4: Your Business Name.

Now that you’ve written your story, determined your niche and created your unique value proposition, you might have a few ideas of what to call yourself.

Business Building Task #5: Your Web Presence.

Buy a web domain; build a website; and hook up an email address, and you’re ready to go to business!

Business Building Task #6: Your Product.

In this task, you’ll learn what kind of services you might want to offer in your business, whether it’s one- on-one or group coaching, workshops, partnerships, a collection of niche services or something completely different. Really, the sky’s the limit.

Business Building Task #7: Your Pricing.

Are you going to charge hourly? A flat rate for a health coaching package?

Business Building Task #8: Payment Systems.

Learn how to find the best payment system for your needs and check out some of our top picks.

Business Building Task #9: The Customer Experience.

We want you to walk through the process of actually working with you — as if you were the client. The process should be seamless. If not... back to the drawing board!

Business Building Task #10: Liability.

In this task, you’ll learn about writing disclaimers and client agreements as well as the benefits of having liability insurance and working with someone who understands the laws in your region.

Business Building Task #11: Setting Up Your Business.

We’ll walk you through the pros and cons of different types of business entities, including sole proprietorships, LLCs and S Corps.

Business Building Task #12: Uncovering Your Brand.

The importance of creating and curating content so that when clients find you they know what you stand for..

Business Building Task #13: Putting Yourself Out There

In this task, we solve for the most consistently-asked question we receive from our students and grads. We tee you up to create your first content calendar and pieces of content to begin sharing across your marketing platforms.

Business Building Task #14: Understanding Your Scope.

With a worksheet to guide you, you’ll be armed with the ability to determine precisely what the rules and regulations on health coaching are in your jurisdiction.

Coaching Practicum Assignments

The best way to learn is by doing. The Coaching chapters of our course feature three coaching assignments to help you begin to build the “muscle memory” that you’ll need to step comfortably into your coaching practice. At this point in the course, you’ll be impressed by how masterful you’ve already become.

Coaching Practicum #1: Reframing Imposter Syndrome

Imposter Syndrome is a perfectly normal cascade of emotions to be expected when we attempt almost anything new. In this exercise, we challenge you to change your language of self-doubt into language of self-confidence. You’ll achieve what you believe, and that starts with mindset.

Coaching Practicum #2: Peer-to-Peer Coaching Role-Play

It’s time to practice coaching! By now you’ve learned the nuts and bolts of a coaching relationship and a coaching conversation. This exercise immerses you in a real coaching conversation with two of your PHCI peers. This is one of the most incredible learning experiences of the whole program. You’ll be impressed at how naturally it comes to you!

Coaching Practicum #3: Case Studies

In this assignment, you’ll be presented with a series of example clients who have come to you, the coach, with some commonly-heard concerns and curiosities. Here, we’re looking to see how you get to the root of your clients’ concerns, and offer them appropriate, actionable feedback.

Business Development Projects

It’s time to get tactical. In this section of the course we take some of the initial brainstorming you completed during the Business Building Tasks and build on it. It’s getting real! At this point, nothing is stopping you from launching your coaching practice *immediately*.

Business Development Project #1: Define the Product You’re Selling

Before you can get out there and find clients, you’ll need to have a sense of what, specifically, it is that you’ll be enrolling them into. At this point, with all of the work you’ve done up to now, some clarity should be forming in terms of how you plan to help your avatar client. We’ll have you start to formulate your coaching product, so that you have a tangible item to put on sale.

Business Development Project #2: Produce a 90-Day Marketing Plan

We know from experience that one of the most consistent stumbling blocks for new coaches is feeling unprepared or unknowledgeable about marketing themselves. In this project, we encourage you to step boldly into building out your own very simple marketing plan, so you can get your coaching business into the hearts and minds of your avatar client.

Business Development Project #3: Create a Framework for Enrollment

If all goes according to plan, pretty soon you’ll find yourself on a Discovery Call with a prospective client. In this project we have you build out a framework for how you’ll structure that call, so that the client feels heard; understands what solution you offer; and cannot wait to get started with you.

Graduation Gratis

The perks of being a Primal Health Coach grad! Once you pass the examinations, we will mail you a completion kit consisting of:

Primal Health Coach Coaching Manual

The Coaching Manual covers the final three lessons of the Primal Health Coach course. Included in the Coaching Manual are several questionnaires you can use to attract and coach clients:

Included in the *Coaching Manual* are several questionnaires you can use to attract and coach clients:

- Pre-enrollment Call Questionnaire
- New Client Intake Questionnaire
- Coaching Session Preparation
- Coaching Session Followup

Primal Health Coach Course Material Manual

You will receive the *Primal Health Coach Course Material Manual* containing the entire written contents of the first 13 educational chapters in the course. Both the *Course Material Manual* and the *Coaching Manual* can be used as handy resources when you want to quickly refer to any of the material you've learned.

Client Reading Materials

If you work with clients and want to get them cranking with important materials, we will provide up to three copies each of the *21-Day Transformation* book and the *90-Day Journal* in your shipment upon request.

**Primal Health Coach Institute
Digital Certificate**

Suitable for sharing on your social media accounts (LinkedIn, Twitter, Facebook, etc.), or on your website, signed by co-founders Mark Sisson and Aaron Fox. The certificate is print-ready, so you can produce a physical copy at any time.

Primal Health Coach T-Shirt

Men's or women's style in your specified size. Fabulous super-soft tri-blend weave.

Primal Health Coach Die-Cut Sticker

This tasteful black and white sticker cut into the PHC Graduate logo shape is great for your car window to advertise your services.

PHC Graduate Keychain

Magnificent and unique item with a three-dimensional detailed Primal Health Coach Graduate artwork and a double antique brass finish.

Grok On! Stainless Steel Drinking Cup

This outstanding product from Klean Kanteen will compel you to permanently switch away from glass. Ice-cold beverages have never tasted better.

PHCI Branded Tote Bag

Tote your credential around with pride, with this lightweight, handy nylon bag, emblazoned with the Primal Health Coach Certified logo.

Additionally, once you're a certified Primal Health Coach you can:

Be Listed in Our Primal Health Coach Directory

Being listed in the directory is a great way to attract new clients. Upon graduating the program and at your request we will publish your name, email contact, city, headshot, and optional text field comments on our Primal Health Coach directory at PrimalHealthCoach.com.

Get Branded

What's ours is yours. You'll have access to Primal Blueprint Publishing materials to use as teaching tools with your clients. This includes fair use of our copyrighted material, such as using short excerpts or educational tools like the Primal Blueprint Carbohydrate Curve with proper attribution, and Primal Health Coach logos.

Buy PHCI Gear

You'll get access to the PHC online store where you can purchase branded clothing, gear, and gadgets, so you can wear your PHC grad status, loud and proud.

Get Wholesale Discounts on Primal Products

If you are inclined to dispense Primal Blueprint products to others, you qualify for a wholesale account at PrimalBlueprint.com. You'll enjoy great savings on quantity orders of Primal Blueprint supplements, books, educational products, apparel, and promo items.

Access Our Exclusive Business Resource Center

The Business Resource Center covers How to Start a Primal Health Coach Business and How to Be an Effective Primal Health Coach. We set you up with the Primal Health Coach 12-Week Program. You'll also find logos, handouts, forms, and other materials to help kickstart a health coaching business. We continually update this learning center, providing tutorials on a range of topics that are of high interest to Primal Health Coaches.

Be Accredited and Affiliated

Primal Health Coach Institute is nationally accredited with the American Association of Drugless Practitioners (AADP), **and approved by both the Health Coach Alliance (HCA) and the UK Health Coaches Association.**

Finally, as a Primal Health Coach, you'll qualify for continuing education credits with NASM, AFAA, ACSM, NESTA, CanFitPro, CrossFit, and CHWC.

Embark On Your Health Coaching Career!
